

POST-SESSION COACHING INFRASTRUCTURE

Give every player a useful reason to *return.*

LeakHunter turns voluntarily exported poker hand histories into concise, co-branded coaching briefs—without putting another manual review in the coach queue.

45-DAY PAID PILOT

\$4,900

USDT · TRON (TRC20)

Up to 500 player reports. No automatic annual commitment. Payment instructions are issued only after written scope approval.

01 · IMPORT

Player uploads.

A participant voluntarily exports completed-session histories from GGPoker or PokerOK.

02 · BRIEF

LeakHunter triages.

The system identifies repeated patterns, supporting hands and the next study priority.

03 · COACH

Your team goes deeper.

Coaches reserve manual review for players and decisions where human judgment matters most.

Live today

SHOWN BEFORE SIGNING

- ✓ Multi-file GGPoker and PokerOK history upload
- ✓ Player statistics, leak detection and coach summary
- ✓ Tournament and weekly progress views
- ✓ Russian-language coaching output
- ✓ Internal validation: 2,736 hands / 28 tournaments

Pilot delivery

SCOPED WITH PARTNER

- + Partner logo, colors and co-branded route
- + Invitation codes and cohort onboarding
- + Aggregate usage export and weekly snapshot
- + English coaching copy if required
- + One agreed activation, retention or conversion test
- + Target deployment within 10 business days

ONE QUESTION, ANSWERED HONESTLY

Did the brief change player behavior?

Before payment, both sides choose one primary metric and one guardrail. At day 45 the partner renews, expands or stops based on observed cohort behavior—not a vague innovation promise.

Activation

Invited players generating a first report

Repeat use

Players returning within 14 days

Study action

Players opening the recommended next step

Guardrail

Support load, failures or opt-outs

Clear boundaries.

Post-session decision support only. No real-time assistance, account access, private credentials, non-consensual data collection or guarantees of poker results.

The validation set proves the workflow runs end to end; it does not prove a future retention or revenue lift.

20-MINUTE WORKFLOW REVIEW

leak-hunter.ru/partners

Bring one real cohort, its current review workflow and the single business metric the pilot should test.
